

CITIES SUMMIT OF THE AMERICAS

February 22, 2023

Sumihiro Investments, LLC is honored to announce that three clients have been chosen to demonstrate their technology at the Cities Summit of America in Denver, Colorado. Sumihiro Investments, LLC is retained as the global strategic advisor and has assisted the companies in entering the U.S. market.

The inaugural Cities Summit of the Americas will convene in Denver April 26-28 where hundreds of officials from the United States and across the Western Hemisphere, as well as thousands of private stakeholders will attend. Only 30 companies were selected to showcase their technology at this prestigious event.

Among the clients are:

EUCAST Global, Inc. provides end-to-end advanced wireless access equipment and solutions. EUCAST is partnering with several companies to showcase its technology in a smart pole designed for urban environments.

SunFleur, LLC will be showcasing an in-building design IoT enabled solar panel and integrated 5g wireless data transmission system that has a 65% greater increase in solar retention than standard solar panels. An innovative upper panel instant color and heated glass window is also part of the display.
