

We are honored to be working with Orient Expressing Holdings to bring Robeff Technology to the North American market.

Robeff is a Turkish company that has an innovative approach to creating efficiency in logistics by rethinking logistics. Robeff has created LiDAR autonomous EV delivery platforms that can carry up to 1800 lbs, tow up to 3300 lbs, has a max speed of 10 miles an hour with 8 hours on a single charge using proprietary software.
